International Talk and Workshop Series

Fall term 2021/2022

The Evangelische Hochschule Ludwigsburg collaborates with university partners all over the world. This semester, we are highlighting this collaboration with a series of lectures and workshops delivered by scholars and practitioners advocating for interdisciplinary perspectives and challenges in the light of human rights, families and social change as well as current challenges in social and care work practice in Europe.

The International Talk Series is sponsored by the EH Ludwigsburg and organized by the International Office. Please register to receive access to the online lecture room at international.talks@eh-ludwigsburg.de
